PLACEMENT CELL

The Placement cell was established in our college to help the students to show ways to get placements soon after completing their degree. Various activities are taken up by the Cell to create opportunities for the students to get placements in various companies and they are as follows:

- To ensure that students have the information and skills necessary for an effective job search.
- To conduct professional training programs outside the curricula to provide better placements.
- Arranging preparatory programs such as seminars, group discussions, written tests/interviews (mock), confidence building and personality development sessions, etc., by experts in their respective fields for students to gauge and handle challenging aspects in their prescribed work sphere.
- The Cell also assists in generating awareness amongst students about the various opportunities present for them to explore.
- Acts as a link between students, alumni and the work places.
